

# Prioritizing Patient Care Simple to Complex

---

Alesia Carpenter, MSN, ACNS-BC, CDE  
Simulation Laboratory Coordinator,  
Regional Center for Human Patient Simulation  
Mission Hospital

Laura Gantt, RN, PhD, CEN  
East Carolina University  
College of Nursing

# Objectives

---

- Demonstrate potential uses of simulation scenarios for development and competency assessment in nurses of varying experience levels.
- Discuss types of simulation scenarios and how they might be developed and used for new graduate nurse development.
- Identify key components of simulation scenarios that should be included in assessment and development of new graduate nurses.

# Simulation Model
